StepnSoak

StepnSoak.com of Aiken, SC, introduces the first one-piece, self-attaching vinyl hoof soaking boot designed to make the task of hoof soaking simple, safe and effective. Designed to be horse-friendly, StepnSoak slip-on boots are made from durable vinyl that can be easily slipped on and is strong enough to leave the horse in cross-ties or in a stall while soaking. The reusable boots are then secured with ties that crisscross securely around the horse's leg – no more fumbling with clumsy buckets or wet duct tape. StepnSoak can be used for a variety of treatments including abscessed hooves, white line disease, bacterial infections or cold-water soaking for navicular treatments. StepnSoak bags are designed to work on hooves of all sizes. The base of the bag can be expanded to accommodate a draft horse hoof or folded to fit a pony. Learn more or order at www.stepnsoak.com (Box of 4 for \$23.95).

Detangler 'n Shine

Straight Arrow Products, Inc. of Bethlehem, PA, introduces Detangler 'n Shine – a revolutionary product that will get your horse's mane and tail looking the way you want. A beautiful mane and tail isn't always easy to achieve or maintain, especially with specific horse breeds that have very long, thick, wavy hair. Mane 'n Tail has the perfect solution to this dilemma that provides instant results. Detangler 'n Shine removes tangles and knots, making it easier to remove barns and other debris from knotted hair while repelling dirt. The other main benefit of this finishing product is that it adds volume and body, for fuller, thicker looking hair that lasts for days. Moisturizing and strengthening properties help to repair and protect hair against breakage. Conceived by Nature® is the latest addition to the Straight Arrow product selection, a natural and organic hair care line. For more information, please go their website at www.manentailine.com or call 800-827-9815 (12 oz for \$15.99).

Kids Microcord Kneepatch

Get your kids ready to ride this summer with Kerrits Microcord™ Kneepatch Breech. Young riders deserve quality and performance just like adults. That's why Kerrits has created kids garments constructed with the exact same technical fabrics and performance criteria as the adult collection. The Microcord™ fabric is durable and abrasion resistant; the mid-weight rib offers more support while also providing freedom of movement as a result of its four-way stretch material. The Eco-Suede™ kneepatch provides grip in the saddle, and this new material is also an advancement and commitment to a greener environment. The breech is available in tan, steel blue, bay brown, and black. For more information, go to www.kerrits.com or call 1-800-274-7946 (\$74.00).

Troxel Introduces New Design

Troxel LLC, the worldwide leader in ASTM/SEI-certified equestrian helmets, is proud to introduce a new fashionable graphic to the Dakota, the most highly ventilated and durable trail riding helmet available today. The new Traildust graphic updates Troxel's popular trail riding helmet with a stylish, vintage design on a sandstone-colored shell. The original Dakota helmet was the first certified helmet for the trail & western rider. Since its launch, the popular Dakota has been noted for its superior performance, functionality and uniquely western touches like small silver conchos and leather accents. The Dakota is equipped with seven mesh-covered vents, a removable/washable headliner and an extended Soft-Tip™ visor.

The Dakota Traildust is available now from select retailers. The Dakota is also available in an array of trail colors including Sandstone, Grizzly Brown, and Black.

For more information, visit www.troxelhelmets.com (\$82.95).
