↑ If You Build It...

Conway Excavating has specialized in equine-related construction and maintenance since 1999, building outdoor arenas, round pens, and more for private residences in New England. What sets Conway Excavating apart from other companies is the use of all natural products in their footing, allowing them to create an arena that's built to last. (508-946-5504)

↑ Featherlite 2011 ↑

Among the new 2011 Featherlite Trailers is a new configuration for its **Model 9608** gooseneck trailer. Most straight load horse trailers can accommodate two or six horses. Now there is a four-horse option, with new rounded LED clearance lights and nylon bushings for the horse dividers. The new Model 9608 has a 28' length, 67" width, and inside height of 7'6". ← Beating Bowleggedness

ThinLine LLC's **Ride Right Stirrup Wrap** combines the correct degree of ankle eversion with the ThinLine energy absorption technology. Trail and endurance riders will enjoy less knee pain on long rides, while competitive riders will experience a more stable stirrup platform when making turns. (www.thinlineglobal.com)
