

### Semi-Custom Saddle

The Synergist Semi-Custom Saddle allows you to choose from three tree widths and six seat sizes. Custom choices include saddle horn, cantle, fender, rigging, skirt, seat, tooling, saddlebags, and tapaderos. All saddles feature high-quality leather and sheepskin materials, as well as high-tech foam in the seat and skirts; a spinal channel and wide support panels protect your horse's spine and help distribute your weight. Free-swinging fenders

give you freedom of movement, while the leathers recess into the tree, decreasing bulk under your legs. **Cost:** From \$1,699.

### Warm Breeches

Women, stay more comfortable on winter rides. The Sit Tight N Warm riding breeches feature Polartec Wind Pro material that combines a fleece inner surface with a wind- and water-resistant outer surface to help you combat the elements; the fabric's four-way stretch makes for a comfortable fit. The Grip Stretch full seat helps keep you secure in the saddle. Available in stone, black, and tan.

**Cost:** \$129.

## NEW PRODUCTS

### Winter Blanket

The Relentless All-Around Stable Blanket contains 300-gram Holofil insulation and a 420-denier exterior to keep in warmth; the closed front helps minimize drafts. The 70-denier inner lining helps your horse's coat stay sleek, while a bellyband closure helps the blanket stay in place. Available in black with purple, red with black, and royal with black, in sizes 68 through 84 inches. **Cost:** \$89.95. **Contact:** Pro Equine Products, (800) 411-1986; www.proequineproducts.com.

### Natural Salt Lick

Providing your horse with minerals the old-fashioned way, Redmond Rock is a highly palatable, natural salt lick, mined from a sea-salt deposit in southern Utah. Along with salt, the Redmond Rock provides more than 50 trace minerals — including calcium, phosphorus, magnesium, potassium, sulfur, manganese, zinc, iron, copper, and iodine — that can help to maintain strong bones and muscles, as well as enzyme function. **Cost:** \$12-\$14 (7- to 10-pound rock). **Contact:** Redmond Minerals, Inc., (866) 735-7258 or 888-735-7258; www.redmondequine.com.

### Stop-Chew Aid

Help your horse break a destructive chewing habit: The Quit Chew Training Aid spray uses oleo resin capsicum and other bitter ingredients to discourage chewing on such objects as wood, trailer ties, blankets, manes and tails, garbage cans, and ornamental plants. The clear, nonstaining formula contains a special polymer that makes it weather-resistant for outside use.

**Cost:** \$16.50 (eight-ounce spray bottle).

**Contact:** J.M. Saddler, (800) 627-2807; www.jmsaddler.com.

### Liniment Spray

Absorbine Veterinary Liniment — already part of many horse owners' supply cabinets — is now available in a spray format for application ease. The liniment uses a proprietary blend of calendula, Echinacea, and wormwood herbal extracts. This formula acts as an antiseptic for minor cuts, abrasions, insect bites, and skin conditions. It also stimulates circulation to ease sore muscles and provide joint relief. The liniment is available in gallon, quart, and pint sizes, plus the new one-quart spray bottle. **Cost:** \$23.95. **Contact:** W.F. Young, (800) 628-9653; www.absorbine.com.
