

Eco-Friendly Tights

Cut wide enough to go outside your boots, but thin enough to tuck in if you prefer, Kerrits's Eco Bootcut Tight for women features a fashionably low rise in front, while the higher waistband behind means you look good in or out of the saddle. The environmentally friendly bamboo-weave fabric offers stretch and support. Available in Earth, Aubergine, and Onyx.

Cost: \$89.

Contact: Kerrits Equestrian Apparel, (800) 274-7946, www.kerrits.com.

Breathable Cinch

Combining the nonslip attributes of neoprene with breathability, the SMx VenTECH Western Cinch from Professional's Choice features a waffle-patterned, limestone-based neoprene liner to discourage bacteria, prevent saddle and pad slippage, and ease cleaning. The cinch's ventilation technology allows heat to escape. The stainless-steel roller buckle enhances fit. Available in 28- to 36-inch lengths, in black or brown.

Cost: \$54.95.

Contact: Professional's Choice, (800) 331-9421; www.profchoice.com.
